Twilio named a **leader** in Omdia's Universe 2024-2025 CPaaS report

"Twilio, a US-based company, continues to push the boundaries of what it means to be a CPaaS vendor. Founded in 2008, Twilio began as a developer-oriented cloud communications provider with a small set of core communications APIs and a pay-as-you-go self-service model. It had the relatively "simple" goal of enabling enterprises to more easily access SMS and voice services for customer communications."

IDC has positioned Twilio in the **Leaders** category in their 2025 MarketScape report for CPaaS

“Twilio still provides the most seamless suite of customer engagement solutions on a global basis. It offers a class-leading array of prebuilt integrations with thousands of IT partners, and it has a reputation for quality, reliability, and ease of use. With one flexible platform for every interaction, Twilio offers an integrated experience with contextual data, communication, and trusted AI”

IDC MarketScape vendor analysis model is designed to provide an overview of the competitive fitness of ICT suppliers in a given market. The research methodology utilizes a rigorous scoring methodology based on both qualitative and quantitative criteria that results in a single graphical illustration of each vendor's position within a given market. The Capabilities score measures vendor product, go-to-market and business execution in the short-term. The Strategy score measures alignment of vendor strategies with customer requirements in a 3-5-year timeframe. Vendor market share is represented by the size of the icons.

IDC has positioned Twilio in the **Leaders category** in MarketScape for Contact Center as a Service (CCaaS).

“Twilio offers a breadth of analytics and flexibility for designing reports and accessing data with the added capability of its CDP Segment. Twilio offers the breadth of channels natively or through a ‘third-party provider via open APIs.’ The company covers all core and most advanced channels, serving verticals and proprietary applications through integrations...

...Consider Twilio when flexibility and access to data are top priorities.”

Data Compliance & Protection

Twilio builds privacy into every product and process to safeguard the data you entrust to us. Rooted in respect, our privacy and data protection program only uses data in ways that are consistent with current data protection laws and customer wishes.

Pillars of Twilio data protection

Privacy and security by design

Twilio builds privacy and security into all products by design and by default, collecting minimal data that's shielded by layers of safeguards. We also use external auditors to verify the adequacy of our compliance measures to ensure that Twilio meets current requirements.

Global protection and privacy compliance

We rely on our Binding Corporate Rules to serve as our code of conduct that governs our global processing of personal data, ensuring that we are committed to data protection measures that go beyond what local laws require and no matter where customers are located.

Transparency and control

We provide privacy resources and controls to help customers make meaningful choices about how their data is used. We also encrypt data both in transit and at rest utilizing industry standard encryption algorithms.

5 //

Twilio Impact

Making a meaningful difference for our customers, championing social causes, and building community and inclusion initiatives.
